Mitch,

I'm sending you these documents to help you evaluate our earlier letter. The documents are as follows:

- Water sampling data with an accompanying aerial photo to show the location where samples were taken;
- Recent ground-level photos from the site;
- A cost spreadsheet pulled from accounting software.

Let me know if you have any questions. I sent this same batch of documents to Abram Orlansky, counsel for UMMC.

Have a good weekend,

Simon T. Bailey
